The following communication was transmitted to His Honor the Mayor:-

CITY OF BOSTON
POLICE DEPARTMENT.

Office of the Commissioner.
January 26, 1921.

Honorable Andrew J. Peters,
Mayor of Boston,
City Hall, Boston.

Dear Sir:-

I am forwarding to you herewith a copy of the budget for 1921-1922.

Last year, the item for personal service was cut from my estimate in the sum of \$52,000. In order to make as great a saving as possible in this item last year, the Department was continuously run with less than the maximum number of men allowed. I desire to notify your Honor that it is my intention in the coming year to keep the Department as near the maximum as possible and that in all probability any such cut as that of last year will show a deficit and requisitions will be made for the amount and of course will have to be paid.

Under these circumstances, I feel it only fair to give you this information and to ask you if any cut is made, that it be as small as possible and very much under that of last year.

It must be realized also by the City Government that we have very much less sickness now than formerly, undoubtedly from the fact that the men are young and strong and have not reached the age that brings about ill health. Therefore, from the item of sickness, there will be a much smaller saving than in former years.

Very respectfully,

/s/ E. U. CURTIS,

Police Commissioner
for the City of Boston.

EUC:MAL.

The records of Wednesday last were read and approved.

In the matter of the complaint made by Captain Thomas F. Goode of Division 16 against Patrolman Edward V. O'Hearn of Division 16 for violation of Rule 40 of the Rules and Regulations of the Police Department, to wit:-

CHARGE: ABSENCE WITHOUT LEAVE.

Specification: In that on February 15, 1921, Patrolman Edward V. O'Hearn failed to report for duty at the 5.45 P. M. roll-call of said date.

The Commissioner approved the finding and ordered that the said Patrolman Edward V. O'Hearn be dismissed from the Police Department, to take effect as of February 19, 1921.

Due notice of such dismissal with the reason therefor was duly and specifically given in writing on February 19, 1921, to the said Edward V. O'Hearn.

CHARGE: CONDUCT UNBECOMING AN OFFICER.

Specification: In that he assaulted your complainant by throwing himself on her while she was in bed and made indecent proposals to her while there, and desisted in his purpose only after a violent struggle on the part of your complainant.

Printed lists of persons authorized to take bail in criminal cases have been furnished to the Police Department by the Court authorities. In each station and sub-station and in the Superintendent's Office, the Bureau of Criminal Investigation, the City Prison and the House of Detention, a copy of the list will be hung in a place accessible to the public and another copy will be kept at the desk.

When a person desires to give bail the officer in command will inform him that he is to make his choice from the list, and when the choice is stated, word will be sent to the chosen official directly or through Headquarters as heretofore. Should that official be unavailable, the same process will be repeated with others as often as may be necessary.

When the person declines to make a choice, through inability to read or for any other reason, the officer in command or the officer at Headquarters, should the call be sent through Headquarters, will endeavor to secure the presence of the official whose residence or office is so situated as to make it probable that he can be earliest in attendance. If he should be absent or unable to attend at once, other officials will be called in the order of their probable availability.

Cards of officials authorized to take bail will not be kept for distribution at station houses or other places mentioned in the first paragraph of this Order; and the officials in question are subject to the rules concerning those places which provide that civility and attention shall be shown to all persons having proper business, but that "persons without such business and those whose business has been finished shall not be allowed to remain, the officer in charge at the time to be the judge and to be responsible."

Police officers will understand and will be governed by the understanding that the Police Department has no interest whatever in the personality of the officials who take bail; that its only concern is that prisoners and their friends shall be served as promptly as possible; and that in securing such service police officers will not consider in any way the private interests of the authorized officials even by attempting to apportion calls among them.

In order that the cards in use throughout the department may continue to be uniform, changes or corrections in the official list or additions thereto will be made only when authorized by the Superintendent.

OFFICE OF THE POLICE COMMISSIONER.
29 Pemberton square.

Boston, Thursday, June 9, 1921.

Police Commissioner Curtis was at his office today and transacted the following business:

The records of Wednesday last were read and approved.

The Superintendent of Police was directed to promulgate the following to the Department by General Order:-

The Department is hereby notified that in accordance with a request from His Honor, the Mayor, the police will distribute the poll tax bills throughout the city.

The importance of this work is well set forth in the letter of His Honor, addressed to the Police Commissioner, which says in part as follows:-

"The collection of these taxes has become a matter of greatly increased importance by operation of General Acts, 1919, c. 283, by which a special assessment of three dollars is imposed upon each male inhabitant who did not serve in the military or naval forces of the United States during the recent war for the purpose of defraying part of the cost of the one hundred dollars bonus awarded by the Commonwealth to its soldiers and sailors.

"By the terms of this statute the amount of such of these poll taxes as are not collected are assessed against the various cities and towns, and it is therefore of great importance to Boston that full collections should be made. That this can be done if the purpose of the act is clearly understood by our people, I do not question, for I think there are no patriotic citizens who will not be willing to contribute the small sum asked as their share in the recognition that the Commonwealth owes to the service of the men who did the actual fighting in the war. It is, however, of obvious importance that the bills should be promptly and accurately distributed, and in this work I believe the service of the police officers would be of peculiar value."

The Commanding Officer of each division will note particu-

larly the following instructions:

As soon as received at the station-houses he will deliver these bills to the Day Officers, who will see that they are delivered at the proper addresses.

When the bills have been delivered he will send a special report to the Superintendent's Office, enclosing all bills that could not be delivered because of the absence of the persons named from the city, house closed, unoccupied, etc.

If information is obtained by any officer that a person has moved from address given to some other address on the same division, the bill will be taken back to the station-house and delivered at the new address on the division.

In case persons have moved from places to where bills are sent, to another division, the bills will be sent to the Superintendent's Office, with new address written on each bill.

If the officer delivering a bill finds the house is closed for the Summer, he will note on the bill, "House Closed", and the bill will be sent to the Superintendent's Office, and from there it will be sent to the City Collector.

In cases where persons have moved to places outside the city of Boston, the bills will be sent to the Superintendent's Office with a memorandum of the new address. All these bills will be sent from the Superintendent's Office to the City Collector's Office for the purpose of verification.

Upon receipt of tax bills from the Collector's Office, he will see that they are properly sorted. If he finds bills that do not belong in his division he will immediately send them to the division where they do belong. This may happen in stations where wards and precincts are split between one or more station.

The City Treasurer was requested to pay to Marjorie G. Short, grand-daughter of John H. Chadwick deceased May 13, current, the sum of Twenty-one and 66/100 (21.66) Dollars, being the amount due the said John H. Chadwick as a pensioned police officer, of the city of Boston at the time of his decease.

OFFICE OF THE POLICE COMMISSIONER.

Boston, Monday, August 15, 1921.

Police Commissioner Curtis was at his office today and transacted the following business:

The records of Friday and Saturday last were read and approved.

The Superintendent of Police was directed to promulgate the following to the Department by General Order:-

Once again it becomes my sad duty to announce to the Department the death of a police officer who was killed in the discharge of his duty. Patrolman Andrew B. Cuneo of Division 1 the deceased Patrolman, on Saturday, August 13, 1921, was shot to death by a man whom he was placing under arrest.

Patrolman Cuneo calmly, bravely and without hesitation, faced the danger that confronted him, a danger that is typical of the policeman's life, and like a true police officer, faithful to his oath of office and to his duty, he has given his life for the protection of the public. The dangers that a Patrolman is called upon to incur, so well known to every member of the Force, are rarely thought of by the public until some tragedy such as this forces them upon its notice. Nor does that public realize that in addition to these dangers, a police officer is also compelled to undergo unjust criticism and even persecution, which might naturally tend to discourage him from the performance of his full duty. Yet Patrolman Cuneo performed his full duty.

Patrolman Cuneo was appointed a Resergeman May 9, 1906, coming on the Force before the position of Reserveman was abolished. He was promoted to the grade of Patrolman January 7, 1908, and has served constantly since. On December 11, 1918, Patrolman Cuneo was set upon and severely beaten, displaying great courage on that occasion. He was unable to resume duty until August 13, 1919, and was then detailed at the Public Library that he might better recuperate. When on September 9, 1919, most of the Boston Patrolmen left their posts, Patrolman Cuneo remained on duty, true to his oath of office. On September 10, 1919, he reported to Division 16 according to his orders, rendering faithful and valuable service there.

In behalf of the Department, I extend the deepest sympathy to his wife and family, realizing, however, that as time softens their grief, they will find their greatest consolation in the honorable record of public service of their husband and father, terminating in an act of bravery characteristic of such service.

BOSTON, MONDAY, AUGUST 15, 1921.

Cuneo.

Subscriptions must be voluntary and in such amount as each subscriber feels able to make.

Division Commanders will forward to the Superintendent all money collected and the officer delivering the same will take a receipt from the Superintendent for the amount received.

The Superintendent of Police was directed to promulgate the following to the Department by General Order:-

(All Divisions)

PRECAUTION
"NO ACCIDENT WEEK."

1. The Massachusetts Safety Council will hold a convention in Boston during the week beginning September 25, and ending October 1, 1921.
2. For the period of the convention a "NO ACCIDENT WEEK" Committee, Mayor Andrew J. Peters, Chairman, has been appointed for Greater Boston.
3. The plans for Boston's part in the State Wide Accident Prevention Drive during the week the National Safety Congress is in session is "Get everybody, including men, woman and children interested, so that each individual will make his or her best endeavors to AVOID ACCIDENTS during that week.
4. The Committee is very anxious that the number of accidents BE KEPT DOWN TO THE LOWEST FIGURE POSSIBLE.
5. Every member of the Police Force will do his utmost consistently with the faithful performance of his duty to avoid accidents himself, and do everything possible to prevent accidents happening to any one else. Policemen will make it a point to watch carefully for children stealing rides on surface cars of a Railway Company, automobiles, and vehicles of all descriptions. When boys or girls are found stealing rides on automobiles, surface cars or any other kind of vehicle, the officer will first stop the vehicle, then take the child from the vehicle, take his or her name and address and report the same to his Commanding Officer, who will see that a report is made by a capable officer to the parents or guardians of the child, stating the circumstances and request the parent, or parents, to try to impress

- upon the child that "hopping on vehicles to steal a ride" is a dangerous practice, and "is also a violation of the Street Traffic Rules and Regulations." The officer will tell the parent, or parents, that it is not always the hopping on the vehicle that is the real danger but the fact of jumping off and running in front of a vehicle coming in an opposite direction which oftentimes prove fatal to the child.
6. Division Commanders will instruct officers patrolling in the vicinity of railroad tracks and railroad yards to arrest all persons found trespassing on railroad property. Boys and girls under seventeen years of age, if found walking on railroad or any railroad yards, trespassing, should be brought to the station house and kept there until the parents are notified and come to the station, when the boy or girl will be given over to them, and the officer in charge of the station at the time shall notify the parent that if the offence is committed again by the boy or girl that prosecution in court will follow, to the full extent of the law. Also impress upon the parents, so that they may impress upon the children, the fact that railroad track walking and entering railroad yards is a dangerous practice and often results in serious injury or death to the child so doing. It is a common practice for children, especially during the warm weather to go to railroad yards to get pieces of ice to bring to their homes, and in the winter time for the purpose of picking up coal. Officers will see that this practice, by children especially, is discontinued. If it cannot be stopped by warning, such children will be prosecuted in Juvenile Court.
7. Officers will understand that this order applies not only to "NO ACCIDENT WEEK", but to every day in the year and at all times.
8. Officers patrolling routes upon which school-houses are located will make it a point, particularly during "NO ACCIDENT WEEK", to be at such school-house mornings, noons, and afternoons when the children are arriving and leaving the school so that no mishap will occur to the school children during their arrival and leaving school. They will direct traffic to that end.
9. Division Commanders will caution officers who operate police patrol-wagons, ambulances and motorcycles to be particularly careful, to observe the traffic laws themselves and exert every effort to avoid an accident of any kind.

OFFICE OF THE POLICE COMMISSIONER.
29 Pemberton square.

Boston, Thursday, October 13, 1921.

Police Commissioner Curtis was at his office today and transacted the following business:

The records of Tuesday and Wednesday last were read and approved.

The Superintendent of Police was directed to promulgate the following to the Department by General Order:-

Yesterday there occurred the second parade of the Boston Police Force which has taken place in recent years. It was successful even beyond that of last year, which merited and obtained great commendation from those who witnessed it. The Police Commissioner wishes officially to extend his most sincere thanks to the Superintendent and to the Officers and men of the Department for the splendid showing that was made. In particular, he desires to express his approval of the work of Captain Patrick F. King, and Sergeant Louis E. Lutz of Headquarters, and Patrolman Edward J. Seibolt of Division 15, who had personal and immediate charge of the parade and the drilling attendant thereon. They have every right to feel great satisfaction with the results of their efforts.

The dress parade upon the Common was most creditable, especially since the men had no previous opportunity of drilling in regimental form.

So many kind words of commendation and approbation have been said by the press and by individual observers, that the Commissioner feels it unnecessary to indulge in extended praise, but he desires the Force to understand that he appreciates the cheerfulness with which they undertook this extraordinary police duty and the efficiency with which they carried it out. He is not unmindful of the fact that it was a busy day for the Department, with many affairs happening all over the City that needed police details and police attention. That the ordinary work of the Police Department did not suffer is a tribute to the members of the Force, who willingly worked extra hours in order that the people of Boston might again view the Police Force that protects it.

To all the members of the Department, therefore, from the Superintendent down, the Commissioner once again extends his thanks.

POLICE DEPARTMENT.

Boston, October 18, 1921.

Payson Dana, Esq.,
Commissioner of Civil Service,
State House, Boston.

Dear Sir:-

Chapter 323, Acts of 1885, requires the head of the Police Department to make a detailed report of the doings of the Department annually to the Governor, in the month of December, and from 1885 to the present time the report has been made each year.

For this purpose an additional clerk who must be a skilled statistician, stenographer and typewriter, has been employed to do the work. The same person has always been employed without the approval of anyone. The head of the Department assuming that he had a right as a matter of course, to employ some one to do the typewriting. This work has always been done by Mrs. Mabelle Olive who now resides at #17 Commonwealth avenue, Quincy, Massachusetts.

I respectfully request that I may be authorized to employ Mrs. Olive this year. It will probably take six weeks, that is from November 18 to December 31.

You will recall that last year you called my attention to the fact that your approval of a clerk for this purpose should have been obtained and that I stated then that thereafter I would ask for your approval.

Respectfully yours,

/s/ EDWIN U. CURTIS
Police Commissioner.

8. One Patrolman to each of the two hundred and seventy-four precincts to report at 5 o'clock, a. m., Tuesday, December 13, to receive ballot-boxes, etc., from Sergeants detailed on trucks, in such cases provided; such detail to continue until the ballots are counted and the result declared. They are then to bring the ballots and returns to the election commissioners' office.

9. On receipt by the Patrolman from the Sergeant, detailed on motor vehicle, as herein provided, of registering ballot-box, voting lists and such other documents as may have been received from election commissioners, the Patrolman detailed at polling-place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot-box to the warden. On delivery of the ballots to the warden, the Patrolman will take from him a receipt for the ballots, which receipt will be returned to the election commissioners.

10. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the Patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the Patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots, after which the Patrolman will see that the box is again locked, and the key returned to the police officer.

11. The Patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where it may be easily read. Tacks will be sent for the purpose.

15. When the polls are closed, the Patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope and the envelope certified by the signatures of himself and the other election officers, and the same returned to the election commissioners, as described in section 14 of this Order. The Patrolman will not allow this envelope to be put into the ballot-box. The Sergeant, who will report on motor vehicle, will keep it about his person until delivery at the office of the election commissioners. The unused and spoiled ballots are then to be put in the envelope for unused ballots, and the envelope sealed and certified.

16. The warden in each polling-place will obtain the votes cast for Mayor and give the result to the Police Officer in attendance at the polls, to be put on a slip furnished for the occasion. The officer will immediately telephone the result to the officer in charge of the station. The officer in charge will immediately telephone the result to Police Headquarters.

If any warden or other person in charge of a voting place refuses to count the total vote for Mayor before the regular counting and sorting of ballots, the officer will telephone immediately that fact to his station. 17. When returning from polls, all motor vehicles must drive to the easterly side of City-Hall Annex, Court square, where ballot-boxes will be conveyed by chute to the basement.

18. It is important that the Patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The Patrolman will also see that the special book for signatures of voters is returned in the registering ballot-box.

19. In case a Patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is instructed as to the duty of bringing the official returns, the box of ballots cast, and the press return to the election commissioners' office as soon as they are delivered to him by the
